CAMERON'S GENERALBUIP.

The Washington correspondent of the New York Herald graphically describes Don Cameron's generalship at the late Pennsylvania Convention and how he snatched victory from the jaws of de-feat. The account is interesting and we copy it: Certain details of the Harrisburg Con-

vention business related here by the Cameron men justify their boast that their young chief snatched victory for himself out of foregone defeat, and 4,880 mares and colts. The San Carlot proved himself by his energy and skill Mission in 1925 had 800 horses and to be a born master of men and political manager. He got to Harrisburg to find had a larger number of horses and himself already beaten. The instructions mares than any other Mission. he had sent out to the counties to hold no county conventions, but have the delegates named by the county committees, of whom, in a majority of cases he felt sure, had been resisted in no less and 2,000 mules. The Mission of San than twenty-seven of the sixty-four counties of the State where county conven-tions had been called and held contrary sight of these Missions there were 33, to his wishes. What made the matter still worse, twenty-three of these coun-ties had instructed their delegates for Blains and three others had passed resolutions of preference. On the other hand, not a single county had instructed Chicago is likely to get the Democratic for the ex-President, and opposition to National Convention. Cincinnati and the third term policy were open all over the State. This was the situation when Mr. Cameron reached Harrisburg, and the Cameron men say that anybody but their chief would have been dis-mayed. But the popular opposition only made him more determined First he assumed control of the Dauphin County Convention, in which county he lives, and made that instruct for the ex-President so as to have at least ons county delegation secure. Then be counted noses to ascertain how he stood. and that he had the generalship to obtain correct information and to use it effectively when he got it is shown by the fact related that when he had mas ered the situation he sent for Gov. Hovt who is very popular in Lackawanna and Luzerne counties, and whose delegates were opposed to Grant, and with the powerful influence of the Governor, Mr. lameron won over to his side eight out of the eleven delegates. This made him sure of success, and he was able to pick up three more before the Convention went to work, making those eleven votes which, if they had gone against him, would have defeated him. No more admirable political generalship has been shown by any one, even by the elder Cameron, the Pennsylvanians say, and they are very proud of their young chief, who did not lose his pres-ence of mind in the face of disaster and

The Gold Hill News of the 18th has the following:

It is just beginning to dawn upon the muds of some that Union, with its 150 feet of rich ore, isn't much after ali-that is, not much comparatively speak ing, and taking into account what it is

The News begs to assure its readers that the most positive indications are that Union has not yet touched its main ore body at all-or if at all, of the explosion in Winter Paluce, then east of the stopes on the 2400 level. The material—ore and quartz and clay and porphyry—which lies outside the sion occurred in the basement of the stopes is another formation entirely and Winter Palace, under the principal so is the low grade quartz south of the guard-room, by which eight soldiers of stopes in the east drift from the shaft. the Finland Regiment, of the guard As has been hinted several times in the non-data wave hilled and four far then on duty, were killed and forty-five ore body lies south and east and below injured. MORSE 4 OF CALIFORNIA.

Some knowledge of the marvellous creams of horses in the early days of Calif write may be gained from the number owned by the various Missions. In 1825 the Mission of San Francisco had 950 tame horses, 2,000 breeding mares, 84 stude of choice breed and 820 mules. The Santa Clara Mission had 1,890 horses, 1,500 mares and 420 mules. The Mission of San Juan Bautista as early as 1820 had 1,369 tame horses, 4,880 mares and colts. The San Carlos mares. The Soledad Mission in 1822 The Mission of San Antonio in 1822. had 1,800 tame horses, 3,000 mares and 600 mules. The San Migael Mission in and 2,000 mules. The Mission of San Luis Obispo had 2,000 tame horses, 929 horses and 8,265 mules. As there were twenty-one Missions there must have been over fifty thousand horses in California before 1830. For the number of inhabitants the ratio is so much greater than ever was known elsewhere that were the facts not well authenticated it would be beyond belief. The cattle far exceeds the horses in number-87,000 on Sau Louis Obiapo, 91, 000 on San Mi, tel, 52,000 on San Antonio, 36,000 in Soledad, 87,600 on San Carlos, 43,870 on San Juan, 62,000 First on San Jose, 71,290 on Santa Clara, 76,000 on San Francisco. There were also thousand of yokes of working oxen and num use flocks of sheep. [California Spn . of the Times, Jan. 17.

STATES ( ) PRESIDENTS.

Which of the States is to have the next Presiden.! Virginia has had five —Washington, Jofferson, Madison, Monroe and Tyler (accidental); Tennessee three Jackson, Polk and Johnson (accidental); Massachusetts two-John Adams and John Quincy Adams; Ohio two-Harrison and Hayes; New York two-Van Buren and Fillmore (accidental); Illinois two-Lincoln and Grant; Louisiana one-Taylor; New Hampshire one—Pierce; and Pennsylvania one—Buchanan. Thus Virginia has had, less a month, thirty-six years the Presidency; Tennessee, nearly fif-teen years; Illinois, nearly thirteen years; New York, somewhat over six years and a half; Ohio (at the expiration of Mr. Hayes' term), a little over four years: New Hampshire, four years; Pennsylvania, four years; and Louisana, one month. The Winnemucca Silver State says it is reported that in consequence of light business on the Central Pacific Railroad through Nevada, fourteen brakemen were discharged on the Humboldt division Tuesday.

We shall be pardoned, no doubt, if we refer to the weather, and to protest against a repetition of the kind we had yesterday. There have been but few times when the wind blew as hard, and everybody was growling because of it.

At the Oasis saloon can at all times be obtained not only all the old substantial drinks, such as whisky, rum, brandy and gin, but also every kind of fancy mixture that has yet been invented. Bechtel spares no effort to please customers.

### A Railroad North.

A bill has been introduced in the California Legialature protecting the timber around Tahoe. If it becomes a law it will hasten the building of a railroad north from Reno to tap the great timber and shut down, claiming that they can belt near Susanville. Timber must be had, if they have to import cedars from Lebanon. A narrow gauge northward would be a bonanza in itself. As it is now Reno is the basis of supply for all Northern California and a part of Oregon. A portion of the freight now goes via. Redding, but a railroad would direct it all this way. With freights gbing northward and timber southward, and passengers each way, a narrow gauge road would have plenty to do. A good easy grade can be had, as the country is gradually sloped this way. We urge capitalists to look into this matter, for there's money in it, and it is only a question of time anyway. The road is bound to be built, for a country so nch is timber, mineral and agricultural land cannot long remain isolated.

We yesterday published an interesting description of the one-track railroad which could be economically built and would do the work for a number of

The Reform Club lost \$8 by their two-ball operations last Saturday night. An admission fee of only two bits a couple would weed out the growd so that the Reform Club hall would hold the audience, and the entertainments afforded are cheap at such a price. None who would be benefitted will hesitate to pay such an admission fee. The treasury would be helped considerably. When the hot weather comes dancing will not be as popular as it is now, and then it will require close managing to keep the free horary running. We are interested for 25 cents, call at Johr F. Myers' drug just received, and offer at bottom prices, in the library; know it is in good hands; hope to see it firmly established and become an institution of our town, and for these reasons we urge close economy now so that the treasury will be healthy bave to go to Goeggel, west side of Virenough to carry it over the hot season. The showing of the Reform Club's finances, published by us some time ago, made the dances about the only revenue they had. To increase the income, is an important matter.
